

# ISO 9001 CLIMATE CHANGE AMENDMENT INTEGRATION

Duration: One (1) Day

## PROGRAM OVERVIEW

In February 2024, ISO 9001 Quality Management System was revised to include Climate Change factors.

By addressing climate change within the ISO 9001, organisations would mitigate its negative impacts, adapt to changes that are already occurring, and work towards a more sustainable future.

During this training, we'll explore the new requirements in the ISO 9001 climate change amendment. By the end of the training, you'll have a better understanding of these changes and ready to make your organization's QMS conform to the new requirements and be future-ready.

## OBJECTIVES

- To understand the explanation of QMS new amendment changes on climate change
- To understand the strategy and approach that can be deployed by the organization to conform to the QMS-amended requirements

## COURSE CONTENTS

- Introduction to the amendments
- QMS clause affected by climate change requirements
- Steps on how organisation can fulfil the amended climate change

## WHO SHOULD ATTEND?

ISO 9001 certified organization, Top Management, ISO Team Members, HODs, executives, professionals and employees involved in QMS and others whose job function will ultimately affect the quality and efficiency of the company and its products.
