

ISO 15189:2022 UNDERSTANDING AND IMPLEMENTING

Duration: 2 Days

PROGRAM OVERVIEW

ISO 15189:2022, Medical laboratories — Requirements for quality and competence is an international standard that specifies the quality management system requirements particular to medical testing laboratories. This fourth edition published in 2022, has been technically revised where it replaces ISO 15189:2012

The revised standard establishes a stringent set of quality management requirements specifically for medical testing laboratories at every level of the health care system. Some of the standard objectives for lab operations include ensuring the quality assurance and traceability of patients' information, maintaining the safety and integrity of medical lab materials, monitoring the facility's environmental conditions, and supporting public health decision-making.

OBJECTIVES

To gain the understanding on the:

- Importance of quality management in the medical testing laboratory.
- Importance and benefits of accreditation of the medical laboratory.
- New revised requirements of ISO 15189 – Impartiality, Structural, Management and Technical Requirements.
